

SCAVENGER HUNT

Colors

Life is like a box of crayons. You never know what you will find! Look at the different colors around your home or neighborhood. **When you find something that matches one of the colors below, draw the object in the color wheel.**

Next steps

1. What color was easiest to find? The hardest? Why?
2. Imagine you get to create new names for crayon colors based on the objects you found and drew. Try to give the colors creative names like Tomato Red or School Bus Yellow.
3. Ask a grown-up to help you search for some works of art at chrysler.org. Look for each color above, and describe some of the artworks you find.
