

SCAVENGER HUNT

Shapes

Shapes are all around us. Look for fun shapes around your home or neighborhood. **Then draw inside or around the shapes below to make some of the things you found.**

Next steps

1. Close your eyes and draw lines and shapes on a blank piece of paper. Then open your eyes and see if you can make a picture from the lines and shapes you drew.
2. Choose your favorite toy, and look at it very carefully. How many shapes can you find?
3. Ask a grown-up to help you search for a work of art at **chrysler.org**. What shapes can you find in that artwork? Try again with another artwork of your choice.
